Ranking list of the Bund Issues Auction Group

In the first half of 2016 Federal Government Securities (Federal bonds, five-year Federal notes, Federal Treasury notes, Treasury discount paper and inflation-linked German Government securities) were issued in 41 auctions with the Bund Issues Auction Group.

The attached list shows the ranking of the 36 members of the Bund Issues Auction Group for the first half of 2016. The ranking is based on the allocated amounts of the auctions of the first half of 2016, weighted by the factors published on 10 December 2014. The weighting factors reflect the different durations and interest rate risks of the individual German Government securities at time of the auction.

For the membership in the Bund Issues Auction Group the minimum of 0.05% of the weighted total allocation during one calendar year remains unchanged. The ranking will be published twice a year, towards the end of the months of June and December.
