### Reopening of the 30-year Federal bond 2024 (2054)

Today, the Federal Government has reopened the 30-year Federal bond 2024 (2054) via syndicate. The Federal bond has a coupon of 2.5% and will mature on 15 August 2054. The issuance volume of the reopening is € 4.5 billion (including a retained volume of € 0.5 billion). The allotment was made at a reoffer price of 99.552%. The total volume of the 30-year Federal bond is now € 11.5 billion.

The placement of the 30-year Federal bond with national and international investors was carried out by a syndicate of banks led by Deutsche Bank, Goldman Sachs Bank Europe SE, HSBC, Morgan Stanley and Nomura. The amount retained by the Federal Government will be used to support the liquidity in the secondary market through appropriate activities of the German Finance Agency.

Deviating from Article 1 sentence 1 (*Placing*) of the issuance terms and conditions of 21 December 2012 (the "Issuance Terms and Conditions"), the Federal bond will not be issued by the "Auction Process", but through the syndicate in the "Syndication Process". The conditions of the Federal bond and such deviation from the Issuance Terms and Conditions (the "Deviation") were determined in the Syndication Process and are published by Deutsche Bundesbank by this press release. The fixed conditions and the Deviation are part of the Issuance Terms and Conditions of the Federal bond.
